In the scorching summer of 2021, a momentous decision swept across Europe, sparking a whirlwind of emotions among parents, who had fallen for the 24/7 propaganda, eagerly awaiting a [fake] ray of hope for their children.

The European Medicines Agency (EMA) had finally granted emergency use approval for the use of the Pfizer COVID-19 vaccine in children aged 12 to 15.

Relief and elation surged through the hearts of countless naive parents who saw this as a beacon of protection against the alleged pandemic.

Yet, the winds of fortune took an unexpected turn as the vaccine rollout for children commenced. Startling reports emerged, revealing a distressing surge in excess deaths among the young ones across the continent. The sense of optimism quickly faded among the thousands of families affected, and was replaced by a grim reality that cast a shadow over the hopes of many.

Tragically, the statistics paint a haunting picture, with a staggering 63,060% surge in excess deaths among children aged 0 to 14 by the twenty-second week of 2023.

These numbers whisper a chilling tale of consequences that were foreseen by many silenced and heavily censored voices.
